3. **Introduction**

Transfer of forest land for non-forestry purposes is governed by Jammu and Kashmir Forest Conservation Act, 1997. User agencies are required to pay compensation for trees and cost of Compensatory Afforestation in lieu of the forest land diverted for non-forestry purposes. Besides, the value of ecosystem goods and services of forests, termed ‘Net Present Value’ or NPV is charged from user agencies.

Hon’ble Supreme Court in its order in T.N. Godavarman Thirumulpad v/s Union of India & Others [Writ Petition (Civil) No 202 of 1995 dated 30.10.2002] directed that a Compensatory Afforestation Fund be created in which all the monies received from user agencies towards compensatory afforestation, NPV and other charges shall be deposited.

In accordance with the guidelines issued by *ad hoc* CAMPA, Ministry of Environment, Forest and Climate Change (MOEF&CC), Government of India on 2.7.2009, J&K State CAMPA was set up vide SRO-354 dated 11.11.2009. The execution of CAMPA works in the State started from the year 2010-11.

Under CAMPA, large-scale activities have been taken up to accelerate conservation of natural forests, management of wildlife, capacity building, research & development, infrastructure development in the sector and other allied works. As JKFD is implementing CAMPA activities in the state of Jammu & Kashmir, there is now a felt need to technically evaluate these ongoing efforts, and based on the learning, plan the way forward. Also, the State CAMPA guidelines stipulate that an evaluation methodology of the works implemented has to be evolved and implemented to ensure effective and proper utilization of the fund for which funds are earmarked.

VI. Comments on the internal monitoring.
   a. What kind of reporting mechanism is put in place? Whether reports are periodically / regularly submitted?
   b. Internal monitoring comments.

VII. Whether the work site registered online at http://egreenwatch.nic.in/? (Yes / No)

VIII. Protection and maintenance of assets created.
   The agency should analyze the kind of measures including watch and ward taken to protect the assets created under CAMPA. The quantity equality of such measures and their effectiveness to be brought out.

IX. Maintenance of records
   - Nursery journal
   - Plantation journal
   - measurement books

X. Programme constraints & Limitations
   - Constraints / limitation / funds flow/
   - suggestion for management
