**Subject: Clarification on selection of land for compensatory Afforestation (CA).**

Sir/Madam,

Please find enclosed Ministry of Environment, Forests and Climate Change's letter dated 8<sup>th</sup> November, 2019 wherein clarification regarding selection of land for Compensatory Afforestation has been issued. It may be noted that forest lands having crown density below 40 percent shall only be treated as degraded forest land for the purpose of Compensatory Afforestation.

In this connection it is requested that the instructions issued by the Ministry of Environment Forests and Climate Change, Government of India may kindly be implemented in letter and spirit.

Yours faithfully,

*Jain*  
(Sarvesh Rai)IFS.

Addl. Pr. Chief Conservator of Forests,  
**Chief Executive Officer, J&K,  
State CAMPA**

The Principal Secretary (Forests)  
All States/UT Governments

Sub: Proposals seeking diversion of forest land for non-forestry purposes-  
clarification on selection of land for Compensatory afforestation(CA) - reg.

Sir,  
I am directed to refer to this Ministry letter of even number dated 8<sup>th</sup> November, 2017 wherein the Ministry with a view to curtail delay in the identification of non-forest land/degraded forest and speedy disposal of FC proposals, has issued guidelines with regards to compensatory afforestation. In this connection, it is inform that the Forest Advisory Committee (FAC) in its meeting held on 21<sup>st</sup> February, 2019 has considered the issue related to suitability of the land identified for raising CA. The FAC noted that the Ministry had received certain proposals wherein the land proposed for CA/penal CA was found to be having medium dense forests (MDF) i.e. having crown density of more than 40 percent. The Ministry, based on the recommendation of FAC regarding suitability of land identified for raising CA, hereby issues following clarifications.

1. Forest lands having crown density below 40 percent, shall only be treated as degraded forest land for the purpose of CA.
2. State government shall prepare a CA scheme with 1000 plants per ha for all such lands. In case it is not possible to raise plantation at the rate of 1000 plants per ha on the selected non-forest land then the balance plants can be allowed to be raised on degraded forest land as per working plan prescriptions.
3. Any non-forest land for the purpose of Compensatory afforestation (CA), selected by the state government in lieu of forest land to be diverted may be accepted by MoEF&CC irrespective of crown density. All such lands shall be mutated and notified in favour of state forest department and declared as PF/RF prior to stage II approval.

This issues with the approval of the competent authority in the Ministry

Yours faithfully,

  
(Sandeep Sharma)

Assistant Inspector General of Forests (FC)
